## MESABI DAILY NEWS Manney's SHOPPER

**HINT: WHAT'S A QR CODE?**  
A QR Code (it stands for "Quick Response") is a cell phone readable bar code that can store website URL's, plain text, phone numbers, email addresses and pretty much any other alphanumeric data. Think "print-based hypertext links" and you'll get the idea.  
**WHERE DO I GET THE SOFTWARE FOR MY PHONE?**  
Different phone networks and different phone manufacturers have embraced QR Codes to varying degrees and in different ways. Your phone may already have it pre-installed, but if not you'll need to install some QR Code Scanning Phone Apps & Softwares. Many QR code scanners are available for free, just visit your App Store, or a helpful list of available Apps here: [www.qrstuff.com/qr\\_phone\\_software.html](http://www.qrstuff.com/qr_phone_software.html)
